FROM THE KITCHEN

The director behind the stove is Monika Damian, the hotel owners' daughter. She uses the gifts of nature, Monika manages to create tasty works of culinary art that will win over even the most discerning palates.

a pleasant well-being

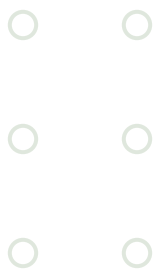

*Even inside the hotel
you will enjoy your holidays amidst
Rosengarten's nature.*

Not only the selection of construction and furnishing materials was done based on environmental protection but also the use of wood, stone and large glass fronts provide cosiness and take advantage of the sun in an optimal way during any season of the year.

Antermoja
Suite

New rooms for more luxury and new suites on the 4th floor are the highlight of the renovation.

These rooms as well are furnished in an alpine style and the glass fronts again offer a panoramic view of the mountains. Nevertheless the Antermoja Suite and the Traunsuite differ greatly from the rooms: these have their own small spa area with sauna, steam bath and either a sky pool or whirlpool. Here, with a panoramic view of the Rosengarten glowing red in the evening sun, guests can experience a modern, alpine feel-good atmosphere.

Traun Suite

A wide-angle photograph of a snowy mountain landscape. In the foreground, two skiers are ascending a steep, snow-covered slope. The skier in front is wearing a teal jacket and black pants, while the second skier is in darker clothing. The background features rugged, rocky mountain peaks partially covered in snow under a clear blue sky. A large, vertical orange banner with the word 'winter' in white script font is positioned on the left side of the image.

RELAX IN, WHILE ENJOYING THE VIEW OF ROSENGARTEN MOUNTAIN.

In this natural setting, surrounded by greenery, you can freshen up after a sauna or on hot summer days. The 24 m-long natural lagoon is not heated and is 24 m long. Various aquatic plants, phyto and zoo planktons are testimony of the high quality of the water.

Fitness and CLIMBINB HALL

If you want to stay fit on holidays, our new, sunlit fitness room is at your disposal, and features Technogym equipment which you can use round the clock. Our fitness coaches will be happy to show you how to use the equipment.

In the climbing hall of our hotel you can train your muscles. The hall has an easier climbing wall with an auto belay and two more walls with more challenging routes, where you need your own rope and a second person to secure it. Knowledge of belaying is required to use the climbing hall.

With our fun Kinderland to enjoy, even the youngest guests will be in their element while the mums can relax in the sauna, take a dip in the pool or treat themselves to a massage. Kinderland is well-equipped with games that kids love including air-hockey, a slide, a labyrinth table, a baby corner and a farmyard jigsaw puzzle. During the holiday season, we also provide full-day childcare and an adventure-packed outdoor program with geo-caching, such as forest games, the experience day farm, hiking tour to the Wuhnleger or floos construction and boat races on the Tierser stream.
